Career objective

I am a **Frontend Engineer** specialized in Typescript and React. I have over 6 years experience working with various frontend and backend languages and technologies including but not limited to: Typescript, React, NextJs, Ionic-React, NodeJs, and SQL and NoSQL databases etc.

I am proficient in crafting visually appealing, responsive, highly functional and interactive web experiences. I've honed my skills working countless hours hands-on on real-world projects. I continue to stay updated with the latest technologies and design trends. I thrive on creativity and problem-solving, and I'm enthusiastic about contributing to the ever-evolving world of software/web development.

I have been involved in operations in several projects with numerous clients and coworkers. My expertise in analyzing data and understanding the importance of collaboration and effective communication whether working independently or as part of a team has enabled me to consistently deliver high-quality services to my employers and a multitude of valued clients.

Skills

- | | |
|----------------|------------------------|
| • JavaScript | • Framer motion |
| • Typescript | • Redux |
| • React | • Redux Toolkit |
| • Nextjs | • HTML |
| • Ionic-React | • Git |
| • CSS | • Zustand |
| • Tailwind CSS | • Tanstack/React Query |
| • Bootstrap | |

Experience

FRONTEND ENGINEER

Lykdat

Oct 2021 - Present

I am currently working as a front-end engineer at Lykdat. Where I collaborate with backend and UI/UX team to develop and maintain responsive user-friendly website and web applications",

SOLUTIONS ENGINEER

Halliburton

Sep 2014 - Sep 2021

I was responsible for testing, designing and delivering software and web application solutions

Projects

LYKDAT

Lykdat makes it easy to find and purchase similar styles of an outfit with just an image. With powerful search features that helps you find what you want even when you don't have the right words.

Built with: React, Next.js, TypeScript, Ant Design

Link: <https://lykdat.com/>

PRICE WHISTLE

Ever wished you could get that trendy outfit at a lower price? Price Whistle is your personal fashion companion that keeps you in the loop on the latest deals on your favorite outfit.

Built with : React, Next.js, TypeScript

Link: <https://pricewhistle.com/>

SIMPLE VIDEO PLAYER

SimpleVideoPlayer.com is a Video player that runs on the Browser. It strictly plays video files that exist on your local computer. It offers features similar to VLC such as amplified

volume (you can increase volume to 400%), subtitle files (you can enable subtitles as you watch a video), keyboard controls (up and down for volume, etc.).

Sometimes you have videos from untrusted sources and you are worried about the safety of playing them with any app on your machine.

Because browsers like Chrome, and Brave have sandboxing. Even though they are also not 100% secure, you are more assured when using them. Also browsers are updated more often than a lot of video players.

Built with : React, Next.js, TypeScript

Link: <https://simplevideoplayer.com/>

WORD GAME

It is a game where users try to guess what the mystery word is.

Built with : React, Tailwind, Framer-motion

Link: <https://t33y.github.io/hangman/>

NOTE APP

This is an app used to take notes. It has features like filtering, sorting and tagging.

Built with : React, TypeScript, Tailwind

Link: <https://t33y.github.io/notes>
